# The WHYS Hands

# The WHYS Hands

Note: **TWH** is short for “The **WHYS** Hands”; **TWT** is short for “The **WHYS** Tree”.

**TWH** decodes a story so famous it is part of every tradition on the planet: once upon a time, my two **hands** communicated via **GReed**. Observing that my **Earth** is corrupted, “God” decided to destroy it with a flood. **NH** is spared, as he “was a **JUST** being”. **NH** is instructed to build an ark, and bring on it “two of every sort of **animal**, male **and** female” and their **food**. Feeling the **G**race of these **PAIRS** is how to **END** the Hunger.

TWH reveals the PAIRfect life of numbers, for me to know such wholeness that nothing or no one is favored. When I know the difference between right and wrong, I merge with the whole to such degree that any denial of responsibility, or any unkind or dishonest word or action is unthinkable. Numbers measure the Earth by way of their geometry; as such they are the shortest and clearest path to incarnating as the Living Word, when I embody Wisdom.

## Preparing for Class

## WARNING :: A 1-MIN. XPR COURSE

I am in great danger: at any moment, I may stumble on a message that will shuffle my memory bank in such a way that I'll change perspective forever! I'll make sure to stay on the defensive: what if I were to *accidentally* find GOD, and *suddenly* found myself happy, alive, laughing, loving and "LAWing" it all?

# WHY Logistics?

BECAUSE, as I'm starting a rare adventure in consciousness, it behooves me to have a map to ground, orient and control the efficient circulation and storing of the information received, *until I can drop the plan.*

"Enlightenment comes when your third eye is at one with your turd eye and you can see your own shit." Christopher Wynter

I resist forgiving and surrendering my judgments, because I fear loss. For many of us, enlightenment takes lifetimes. For some of us, it took an experience of great violence. While enlightenment is not going to happen *because* of what I do, it will also not happen *without* my doing. Truth be told: I am the only one to know how much I actually show up to the eXPiRe process: do I wait for the last moment to do my homework? Am I willing to be called on my BS, when there's evidence that I'm lying? Thus far, there was no linguistic forms by which to feel my speech acts. I thus could only get archetypes intellectually, which means I didn't get them at all! *Having both a geometrical shape and an algebraic numeral, the 22 letters are the material carrier I was looking for: I just needed to master the art of making the numerals speak! This art, known as geometry, is QKabbalah's foundation.* By keeping me honest, IT leads me to THE END of the BS, when I write the pages of my book, lose the pounds, make the money, in a TRUTH THAT IS MEASURABLE.

**TIME:** TWH/TWT is a SIX- month course, three sessions per month (schedule on P6-7). It can be reviewed against a nominal fee, and as many times as it is my pleasure to do so. **MONEY:** one-on-one sessions are available by request, and given as per the "Sense of Enough": what is enough for me to give to receive the answer I seek? **TRUTH:** I will die, both to who I *think* I am ("the body"), and to the body. The "when" is an unknown. I'm in great danger: to protect myself, I can read **P4.**

The WHYS Tree is a SIX-Month Course transmitted on Mondays evening, 7-9P CT, 8-10P ET.  
We will meet the first 3 Mondays of each month (and the 4<sup>th</sup> Monday in a 5-Monday month), for a total of 20 sessions.

# WHY Body Stages?

BECAUSE the **Shame** that I resist is how I am yet to come to a point of “Enough” with my pain, and BECAUSE ALL Mystery Schools agree on THE END result as being the Body of Light!

“Confidentiality by request: when I can’t live with a wide-open **Shame** Closet!” 5<sup>th</sup> XPR Agreement.

Body Stage	Shame	Causal	Subtle	Gross	Witness	Light
State	Altered	Deep Sleep	Dreaming	Waking	Conscious	Immortal

Here is a PaRaDoX: every process and secret revealed in this SIX-month course will remain between the community formed by students and teachers: total confidentiality! However, to disrobe from the **Shame** body and shift to the **Light** body that I Am, I must come out of the closet. This *is* being the change I wish to see! What I used to think as a humiliation is now the source of my Wisdom. Now that I am REAL, I no longer fear to be exposed as a fraud. Such presence is what Chinese alchemists call the “diamond body;” European alchemists, the *Corpus Incorruptibile*, Christian schools, the “glorified body,” Gnostics, the *Pneuma* or the “vital breath,” which moves through me, to give me life.

When postponing my Good, I’m in the past; not an **immortal** in the **light** body!

# WHY the One-Time Logic?

BECAUSE I make NO sense: I say I want to be sober, and then I go buy a 12-pack, and BECAUSE logic involves numbers (e.g.; a 12-pack), no matter what my goal is! Numbers give me the proof that I know the **Difference** between “WRITE” and wrong.

Using [www.pathofxpr.net](http://www.pathofxpr.net) learning portal: 1) I complete my lesson’s readings. 2) I answer the following questions. 3) I submit the quiz.

- What is my fondest dream – my AIM? I make it measurable.
- What is or are the insane habits that I use to do harm and shame me ↔ make me feel that I am not “enough” ↔ block me from being the AIM?
- Out of this list of bad habits, which one keeps all of the others in place?
- How will I know that my mission is accomplished; what would be the proofs that I am no longer blocking my AIM?

On a Limb?	?	?		?	?	?
WHY PaRaDiSe?	?	D for Difference		?	?	?

Called *Chamsa* (Arabic for “5”), the 5 fingers symbolize the 5 senses.

I revisit weekly the foundation of my dream, when I AM the AIM.

# WHY Weekly (7) Work?

BECAUSE, whether I choose to **feel** it or not, my days on Earth are **numbered**, and BECAUSE being willing to make time **count** is exactly what a numerical alphabet can facilitate.

Using [www.pathofxpr.net](http://www.pathofxpr.net) learning portal: 1) I complete my lesson's readings. 2) I answer the following questions. 3) I submit the quiz.

- The past: what is the WHY that most disturbed me in the last class?
- The present: where am I now in my inquiry on this specific WHY?
- The future: now that I felt into #1, I wish to understand WHY...?
- The in-between: I have questions on pages [\_\_\_\_] of the required reading.

Note: my insane habit of choice (☺) is to be felt via the 7x7 Forgiveness Journey (P35).  
I keep track of my progresses via the learning portal.

On a Limb?	?	?	?	?	?	?
WHY PaRaDiSe?	?	?	R for Reminder	?	?	?

I'll need an amulet warding against evil, as long as I resist **feeling** what's Good and what is not!

# WHY Created-SIX?

Notice how **Ether** is behind **Water**, and **Earth** is behind **Air**, and **Fire** is behind (depends on) **Wood**...

BECAUSE I must come to **THE END of Desire** for the Earth to be revealed. **Earth** is the invisible part of the **FOUR** classical elements: **Fire**, **Earth**, **Water**, **Air**.

**Earth** calls me to have faith, that is, to merge the concealed and the revealed, which is how to reach any goal!

The Snake	Dormant	Not Unfolding	Not Revealing	Not Nourishing	Not Warming	Not Limiting
-----------	---------	---------------	---------------	----------------	-------------	--------------

Hebrew word *Shesh* for "SIX". The 3-flame sign Shin lights up the revealed; the 4-flame Shin, the concealed.

SIX elements source the three main cosmologies: Taoism, Hinduism, Judaism. Three of these elements are concealed (**Ether**, **Earth**, **Wood**): the sequoia's **seed** contains a **tree** yet to be revealed. The **etheric** program that imprints the **seed**, the **Earth** in which the **seed** is planted, and the **Wood** of the future tree are concealed, *until they are not*. Three elements are revealed (**Water**, **Air**, **Fire**). The sequence above illustrates how elementary life processes are. First the **yin** (female) elements: life is written genetically as an **Etheric** code → It becomes visible in **Water** and is nurtured in **Earth**. Then come the **yang** (male) elements: life breathes **Air** bathed by the warmth of the **Sun** → It **limits** its form according to its **genetic** program.

# WHY Printing this Page?

BECAUSE having a solid foundation is going to make associations between above and below SO real that new neural pathways will be created to overwrite the repetition of insanity.

“Resistance is futile: you will be assimilated.” *Borg Collective, Star Trek.*

Resistance	Loneliness	Sadness	Shame	Fear	Hatred	Anger
Unconscious	Fallen angel	prostitutE	saboteuR	victiM	child	Avenging angel
Ignorance	Screech	Split Mind	Lost Soul	Pain Body	Broken Heart	Forsaken Spirit
“HUEmor”	Excessive	Sanguine	Melancholic	Phlegmatic	Choleric	Supine
Elementary	Black Ether	Azure Air/Metal	Blue Water	Brown Earth	Red Fire	Green Wood
Knowledge	Voice	Mind	Soul	Body	Heart	Spirit
Conscious	GReed INgénue	Engineer	Visionary	Officer	Leader	GRace INgénue
Desire	Aloneness	Freedom	Satisfaction	Integrity	Transformation	Consciousness

From the center outward, FOUR Yin Yang Fractals for me to observe as they move within me: “HUEmor” & Elementary → Ignorance & Knowledge → Unconscious & Conscious → Resistance & Desire:

1. How is Knowledge extrapolated from Elementary? How is Ignorance the exact complement of Knowledge? What link do you see between “HUEmor” and Ignorance?
2. How is the Unconscious the result of Ignorance? How is the Conscious the result of Knowledge?
3. How is Resistance extrapolated from the Unconscious? How does THE END of Resistance usher the fulfillment of ALL my heart’s desires? Note: Proportion is the geometrical expression of Justice.

# WHY Digital?

BECAUSE “digit” comes from French *doigts* [doo-uh] (for “fingers”), and because the XPR software gives me 10 Words to clean the bug of “free will” that disturb the binary code 0/1, by which to be (1) and not to be (0).

The lineup to the left says: “I know what to do (what’s right); I **just don’t want to** do it.”

The “eagle” hands have no need for #0, as the ego is already nullified. When I am yet to surrender, I have the **10** Words (the Ten Commandments) as a sublime medicine. As word **Vav (W=6)** for “nail, phallus” meets word **Heh (E=5)** for “window, womb”, I come to the **11<sup>th</sup>** hour, when **Desiring** the bad (“I don’t wanna”) is annihilated: **11** moves into the **0** of **10**, and **10**, into **9**: I am **Complete**!

Supreme Cure

# WHY 666-Desiring?

BECAUSE the illusion of bondage to the 666-Beast of Desire, and the motivation to sabotage the good will remain as long as my foundation has cracks and snakes in it.

How can I not be plagued with desires, when I am yet to feel the responses of my senses to life's violence; the impatience, the anger, the boredom, the loneliness, the sorrows, the sicknesses, the injustice, the poverty, the shame, the greed? I say it doesn't concern me; yet the separation is unreal and irrational, because, as a part of the W/hole, I have created this crisis. Yet, I don't want to face it. And so I numb myself, tempering my boredom with a new book, the latest toy, an exotic trip, food: anything to distract me! I secretly hope that something would change, that this saving device of mine would end the insatiable hunger. Although it never does, I don't choose to see the cause: that I am who dis-appointed the Messiah in me, by letting Snake Beliefs (the BS) erode my foundation – the very source of my creative energy.

WXM=666 enact the "squaring the circle:" **W** is the Line or the arrow, **X** is the circle or the archer, **M** is the square or the target.

The Snake	Dormant	Unfolding	Revealing	Nourishing	Warming	Limiting
The Messiah	Disentangling	Consolation	Fulfillment	Endurance	Providence	Optimizing
L/B MSYH	L'Mashiach	M-Menachem	S of Shiloh	Y of Yenun	H of Chaninah	B'Mashiach

666's geometries: Yom HaShishi (YWM ESSY) for "the SIXth day" | the sum of **Menachem** (MNHM) + **Shiloh** (SYLE) + **Y-Nun** (YN) + **Chaninah** (HNYNE) = 138 + 345 + 60 + 123 | **Shem Yeshuah** (SM YESWE) for "Jesus' Name".

# WHY 3 into 7?

3 = the Promised Land ↑

Beliefs

“**The Tree of Life** within the **Garden** and the Tree of the **Knowledge of Good and Evil**” (*Gen. 2:9*).

**BECAUSE** being permanently connected to the Crown (=loving what IS), and having my third eye open will make a HUGE difference in the quality of (my) life and in the contribution I’ll naturally extend to ALL sentient beings!

Heart Chakra	Mouth	Throat	Navel/Sex	Root	Third Eye	Crown

The World	Infinity	Creation	Attraction	Manifestation	Download	Eternal Light

The mouth chakra is the gate into the “Promised Land:”

1. Pick a limiting **belief**: how does this *projection* **create** a “lower” world?
2. The **emotion** you are now resisting, what does it **attract**?
3. What **actions** do you now engage? What does it **make/manifest**?
4. 3<sup>rd</sup> eye opener: I **download** the **One Language** (=I **own** my *projection*).

# WHY 4 into 6?

BECAUSE I am like a child refusing to grow up, who gets mom and dad's attention as they reward me for being a good girl [boy] or punish me for being a bad boy [girl].

The FOUR		The <b>FOUR</b> Stages of the <b>DREaM</b>

The FOUR		The <b>FOUR</b> Stages of <b>LOVE</b>				

Aleph taking SIX different viewpoints *at the exact same time!*

← When I widen my perspective, I see that the square is within a hexagon → To feel it, I become conscious of the following:

- I came into the body as a **Fallen angel**, with a contract to “digest” a specific area of **GReed**. I get reminders via an **INgénue** doing her best to alert me to a shame area.
- Yet, I won't wake up! Not taking responsibility for the mess, I turn **Avenging angel**. I know that I forgave when my **Genius** is free: I am now **GRace INgénue**, doing ALL by grace alone.

What if I limited me to 4 angles? Yet, I forgot that I made that choice!

The Adam of Gen. 1 is primary (total Faith): s/he serves *Elohim*, the GOD Name that is “Created SIX”. The Adam of Gen. 2 is secondary (lots of doubts): He serves the FOUR-lettered Name, a “LORD” who is either punishing or rewarding.

# WHY 1 into 9?

Formed by an **up pointing** and a **down pointing** triangles, the hexagram illustrates how **male ascent** as **Fire**, and **female descent** as **Water**, complete each other. To facilitate the union, I can rely on the play of my **child** and **saboteuR**.

CHILD'S ASCENT  
LEADER'S DESCENT

VISIONARY'S ASCENT  
SABOTEUR'S DESCENT

Dimension	Time	Depth	Height	Width	Length	Purity
Function	Becoming	Thinking	Feeling	Sensing	Intuiting	Being

**BECAUSE** it gives me boundaries, when I think I'm above the law, and go from one extreme to another.

The Hebrew for "**Length** and **Height**" is *Horakh U'Qumah* (AWRK=**227** W'QWME=**157**). **227** is *Zekhar* (GKR) for "male," who is *K'Aur* (K'AWR) for "like the light." **157** is *Neqebah* (NQBE) for "female," who is also *K'Qabbalah* (K'QBLE) for "like receiving."

*Yah* is the GOD Name that inscribes the entire Tree-House using the Power of Memory: the **up-pointing** triangle traces the motion of **Fire**: it leads to the chamber **9**, of my **Leader**. The **down-pointing** triangle traces the motion of **Water**: it leads into the chamber **1**, of my **Visionary**. *Yah* is a two-lettered word formed by **Yod** (the male seed) and **Heh** (the female womb). *Yah* (**YE**=15=1+5=6) is behind all lines of a magiQKal square whose numbers add up to 15, to support my tantriQK union.

# WHY 20:20 Vision?

BECAUSE 10x2 is THE universal symbol by which to have acuity; a clarity and sharpness of vision that is measured as I AM the AIM – a awesome sight manifested by 10 fingers and 10 toes working at One.

These five/SIX symbols share one characteristic: they all add up to being a 10!

1. The MagiQKal Square of 9 digits within the all-encompassing cipher zero.
2. The candelabrum with FOUR male branches and FOUR female branches (8) + 1 core + 1 base.
3. The 10 Words or “matters” that direct the communication of 10 fingers and 10 toes, over the Vitruvian Man and Woman, each having 4 limbs + 1 head ((4+1)x2=10).
4. The Buddhist Wheel formed by eight spokes, one hub, and one rim (8+1+1=10).
5. The octahedron of FOUR directions and sub-directions, between the Zenith and the Nadir (4+4+1+1=10).

## Opening to GRace

# WHY the One Light?

BECAUSE it reveals that I am created male and female: being male-like is the Power to circulate the light; being female-like is the Power to receive the light, and hold it!

Opportunity	Vulnerability	Receptivity	Illumination	Inscription	Revelation	Passage
-------------	---------------	-------------	--------------	-------------	------------	---------

Hebrew word *Chan* for “Grace”. Turned around, it writes *Noach* for “Noah”. When it forms *Chan-ukah*, it is the “Grace to stop [the fight] on the 25<sup>th</sup>” of Hebrew month *Kislev*. Christmas is also on the 25<sup>th</sup> “day”.

The holiday of Chanukah witnesses the miracle of **Illumination** – when I fully released my will. Such enlightenment occurs in the darkest and coldest “season”; in the winter of my soul. Such “rest” is also *Shabbat*, on the 7<sup>th</sup> day ( $25=2+5=7$ ).

# WHY Lucky Seven?

BECAUSE #7 is tantalizing, and thus generates strong emotions: it incites the desire to obtain that which I will *think* is beyond my reach as long as I haven't died to who I *think* I am.

# WHY 44 Nights?

BECAUSE embracing the dark night of the Soul is what it takes for me to come to THE END – when I stop fighting “God” and/or my innate goodness. I am now primary, meaning what I say and saying what I mean!

SOULution	Kissed by Truth	Breathing	Surfing	Resting	Envisioning	Connecting
-----------	-----------------	-----------	---------	---------	-------------	------------

Hebrew word *Dam* for “blood”, since blood moves in my veins differently when I incarnate as primary Adam. Note, *Adam* adds an Aleph (A=1) to *Dam* (DM=44): the one “missing” in the **succession** below.

*Channukah* lasts 8 “nights”; on night 1, I light 1 candle using the central guide (5) to do so ( $1+1=2$ ). Night 2, 2 candles ( $2+1=3$ ). Night 3, 3 candles ( $3+1=4$ ). Night 4, 4 candles ( $4+1=5$ ). On night 8, I’ll have lit  $2+3+4+5+6+7+8+9=44$  candles.

# WHY Zer0?

BECAUSE there is a big difference between having no value as a worthless person, and being so wide-open that my assimilation allows me to conceive emptiness.

Shaped as zer0, the ouroboros comprises the etheric field of ALL memories; past and future. It is the Cosmic Egg and the primordial human touched simultaneously by the nothingness of death and the fullness of birth.

Teth → Th

Neither the Babylonians nor the ancient Greeks were too sure about the status of zero as a number: how can nothing be something? The quandary led to religious and philosophical debates about the nature and existence of zero, and of the vacuum. The concept of number zero is attributed to India (9th century AD), where practical calculations were carried out using zero and treating it like any other number, even in cases of division. Indian scholars used the Sanskrit word *śūnya* to refer to zero or to the void. The last syllable of Sanskrit *śū-nya* is found in Hebrew word *Ain* (AYN) for “**nothingness**”, and *Ani* (ANY) for “empty-fullness”, as “I”, the something (#1) that comes out of the nothing (#0). By adding one to each digit, I move to #2, #3 and then come to #9, the fullness of *Ain*. The emptiness refers to zero as a numeral that has no value but increases by ten the number that precedes it. The name *Zero* comes from Arab mathematicians who called it *Siphr* (Hebrew *Sephirah*/XPR “sphere”) to speak of emptiness. The word evolved into Latin *Sifra* before becoming *Zefiro*, and was contracted in French as *Zero* at the advent of the medieval ages.

Hebrew letter *Yod* for “hand”, doubled. The word is used to replace the Holy Tetragrammaton (YEWE), for The “LORD”. It is also the mark of the dual form, a plural for names in pairs, e.g.; eyes, ears, scissors, etc.

*Channukah* celebrates my stopping the fight (the illusion of 2 as “DUALity”), and move into 2 as “PAIRfection”. I am awake; my right hand knows what my left hand is doing. I am a servant leader, my will being in service to the One.

# WHY 1 Child?

BECAUSE, whereas my mother and my father gave me life, I must now birth myself into Spirit – the knowing that I Am. When I do, I Am a child at heART; I enter the QKingdom, and am in PaRaDiSe.

Deliverance	The World	The SON	The Bride	The Mother	The Father	The Cell
-------------	-----------	---------	-----------	------------	------------	----------

Hebrew word *Bam* for “in them” for the Aleph that is “in them” – in the words *Im* (AM=41) for “mother” and *Av* (AB=3) for “father”. Note: the sum of *Im* plus *Av* equals 44, the value of *Yeled* (YLD) for “child”.

The “Son of God” is the Self who has at once 1) the brilliance of the “Sun of God”, 2) the generosity to be eclipsed, and let the other win. It also ends the search for Deliverance in the **Father**, **Mother**, **Bride**, and/or **SON** in the World, *out there*.

# WHY the Golden Rule?

BECAUSE I have so many trust issues that I need universal agreements to support my purifying! Just like gold is the purest metal, the rule of “do no harm” is so pure that it is found across space-time.

PsychoBABEL	Head Trips	Motivations	Mistakes	Habits	Lies	Offenses
-------------	------------	-------------	----------	--------	------	----------

Hebrew word *Bal* for “do not”. It reverses in *Lev* for “heart”. Double the B: it becomes *Babel*, the neurotic desire to make a name for myself! Double the L: it becomes *Balel*, the “confusion” that follows this dis-ease.

The Torah’s first word starts in the B of *Barashit*; its last word ends in the L of *Israel*. The Teaching therefore stretches me from B to L, to say “do no” harm. As I receive IT, I change my ways, and turn from L to B, into my “heart”.

# WHY Measuring?

BECAUSE how much I accept to be incarnated shows in the measure of my Earth: my results reflect how true I am to my Word.

The science of calculating a word's value is known in Hebrew as *Gematria* (→ "Geometry").

Hebrew word *Midah* for "measure". By adding Aleph to the letters MDE, I come to *Adamah* for "ground, soil, Earth". The message is consistent: I came to Earth to incarnate in a measurable world, and to transcend it.

**1** dot is **Opening** to all perspectives. **2** dots draw a line to be **Deciding**, **3** dots are triangular and **Changing** "partners", **4** dots are solid to be **Resisting** the bad!

# WHY Above & “Belove”?

BECAUSE, when I realize that everything in the Universe is geometric, be it is people, animals, planets, solar systems, stars, belief systems, etc., I am motivated to learn about measuring IT on a geometric scale...

There is a single pattern of creation that sources it all. This symbol is the “Seed Of Life.” It passes the test of time and space, as it is one of the oldest known symbols, and as it appears cross-culturally: it has been found in temples, and in art all over the world, including Ireland, France, Turkey, Egypt, China, Greece, Germany, India, Tibet, Japan, Sweden, Israel, etc. Over six thousand years old, it also has been praised throughout human history by philosophers, scientists, artists, and architects for its perfect beauty and symmetry, proportions and harmony. This pattern (below #6) is at the root of all creation.

# WHY 50?

Nun → N

BECAUSE 50 is 5x10:  
1+9, 2+8, 3+7, 4+6,  
5+5, and BECAUSE it is  
the “day” when I feel  
pure enough to be at  
once given the law (I  
know what to do), and  
receiving IT (I’m doing  
what LOVE wills).

Law of LOVE

Hebrew word *Mi* (MY=50) for “who am I?” The 50<sup>th</sup> “day” is THE gate of UnderStanding. It crowns **Sephirath HaOmer**, the “counting” of 49 days or 7x7 weeks, through the 7 lower chakras. It is done, when I forgive.

The Hebrew Tree of Life has seven rungs (as does the Hindu Tree). 3 of the rungs split the **Sephirah** (Hebrew for “chakra”) into 1 male & 1 female, thus 10 Sephiroth match 7 chakras. The **3 Sephiroth** of Crown/3<sup>rd</sup> eye are not the problem area. The **7** below are where I get into trouble. The WHYS Tree makes this information abundantly clear.

# WHY the Leviathan?

Nun	Vav	Nun
Vav	Aleph	Vav
Nun	Vav	Nun

BECAUSE I am a Big Fish, a title given to who dares to dive deep and lives in the “pairs of waters” of non-resistance, I saved myself as did all the Big Fishes before me, such as Moses or Jesus.

In the 9 chambers, **N50** is the exact center of room **5**, to say: “IT is written!” As a word (top), **NWN** is the epitome of symmetry. The letter **Nun**, for “miscarriage, the fallen one”, is doubled to point out two ways to **Fall**. The first has the innocence of the child, who **descends** into the body with the graciousness of a snowflake. The second one has the guilt associated to wrongdoing, as I am telling the story of shame. Saying “I should or should not have [fill in the blank]” is not true, as reality shows that I did!

When I next feel lonely, I can ask myself:

- WHAT I am unwilling to give or forgive?
- WHY would I be unwilling? My answer awaits in the WHYS Tree.

# WHY is Pi “Enough”?

BECAUSE it makes having no boundaries, a.k.a. Art, viable: while the famous number Pi ( $\pi$ ) is an infinite sequence of numbers including any possible number combination, its rational value (22/7) curves space via 22 basic signs, and focuses time via the radius of a 7<sup>th</sup> “day” of rest.

*Mathemata* (Greek for “mathematics”) means “that which can be taught”. It can thus be learned!

The challenge with being an artist is to be at once lawless while daring to transcend the law, and skilled in the linearity of organization. This odd coupling is the only way for the artist to come back safely from the Neverland of imagination! Pi quantifies such mastery: approximated as 3.14, it is called by and calls the 314 value of two essential Hebrew names voicing the paradoxical interaction of twin forces:

- **Metatron** (MThThRWN) who escapes fixed definitions by serving as the celestial scribe having it – the chaos – “ALL written” within a **Cube** formed from the Soul.
- **El Shaddai** (SDY) for “God of Enough” as an **Octahedron** spinning the sex chakra, and revealing the order of creativity by setting limits via the sense of Enough.

Such paradox is how to meet the challenge of the 666-Beast (see P15): to “square the circle” and actually fulfill a mission impossible: to let myself be assimilated!

# WHY “Who Am I?”

BECAUSE Inquiry -- or the courage to investigate the shadow – reveals the agendas hiding the LOVE I seek. It is how to come to the Surrender that answer ALL my questions.

Revealing my secrets is how to Redeem the stages of my evolution.

Fighting	Provoking	Contesting	Cold War	Wrestling	Ambushing	Checkmating
Inquiry	Judgment?	Is it true?	Where do I go?	What do I do?	Who am I?	Resisted XPR?
Redemption	Vigilance	Detachment	Plenitude	Recovery	Altitude	Hard Cash
Surrender	Namasté	Clarity	Altruism	Sensitivity	Openness	One Victory

When I pay the price of evolving (or returning) to innocence, “good” and “evil” sides spontaneously work together. Who is this “I” choosing sabotage? Who is this “eye” choosing to see the “no good?”

Hebrew word *Geullah* for “Redemption.” Redemption—noun: the action of saving or being saved from sin, error, or evil.

2. the clearing of a debt or the action of regaining or gaining possession of something in exchange for payment.

# WHY 7x7 Forgiveness?

BECAUSE Honesty is the only way to be straight in my accounting,  
BECAUSE such straightness is the only way to hear and SEE that I AM the AIM,  
And BECAUSE, while still keeping tabs (not forgiving), I might as well make time count!

# WHY is Justice an Enneagram?

BECAUSE, when beyond personality types, I feel part of a sisterhood and a brotherhood of light that lets the beauty I love be the JUST result of my communication.

With 32 Wondrous Meridians of Wisdom engraved *Yah*, the LOVE of Hosts, the God of who IS REAL . . . and created the Universal Logos through three *Sappirim* (XPR) or 'lights:' *Sephor* (XPR) for 'counting' or numbers, *Sepher* (XPR) for 'book' or letters and *Sippur* (XPR) for 'story' or sounds." *Sepher Yetzirah*, "Book of Attraction", Chapter I

The multiplication series for the polar pair 2 & 7 is an exact mirror: 2 4 6 8 1 3 5 7 versus 7 5 3 1 8 6 4 2. Everything is starting from the center outward, as a singularity coming out of the Black W/Hole. Nature's "God" share its light by way of numbers, letters, and sounds – the 3 XPRs of 3↔6↔9. Supported by the absence of 0, the 9 axis feeds the vortex. The toroidal motion from and away from the central axis is the point towards which **matter** converges, and away from which it diverges.

# The Boundaries

...Of Infinity

The Word	Perspectives	Numbers	Sounds	Letters	Names	Cipher 0/1
The World	Infinity	Creation	Formation	Manifestation	Emanation	One Light

The past only comes from being addicted to telling the story of pain (the BS). Numbers show me reality: that the multiplication tables could be read in a straight line or in a circle speaks of a simultaneous system, where there is no time between what I say I want and what I see as already created. When my thumbs join forces, I disappear to be infused with the infinity of #9, whose infamous LOVE potion I have now tasted and ingested.

# WHY Plus One?

BECAUSE joining a mastermind group allows me to be calling on the intelligence of the **collective** to open to new perspectives, and think beyond boundaries (have Faith!)

Qoph → Q

“For where two or three gather in My Name, there Am I with them.” *Matthew 18:20*

In ancient law, one person says the blessing (or gives the absolution), and the other receives it by saying “Amen” (AMN), an acronym for *El Melekh Neeman* (“God King of Faith”). “Yes, but,” says Safra Catz, “consensus doesn’t always work in a crisis: you must have the courage to move forward”. Co-CEO of Oracle, Safra just called the Power PaRaDoX: **Individual** or **Collective**? My pendulum will swing from one pole to the other, until I center in **Symbolic** Power, and let **IT** do the driving: I now have a **new eye**, open to “**We**” perspectives. It is how it has been said that, when the WHY is big enough, the HOW and the WHAT find a spontaneous answer. However, when the WHY is not big enough, I’ll use the HOW and the WHAT as excuses for not doing what I said I would.

Perspective	Black W/hole	IT	We: You & I	ITS: Me vs. You	I → new eye	IS [not] REAL
Power	Plural	Symbolic	Collective	TWIN (Dual)	Individual	Singular

As per the Rule of Colel, the pure choiceless awareness of Aleph – my ultimate “Plus One” – is behind every word (just as 0/1 is behind every number): the Rule stipulates that any word can be equal to any other word by plus or minus one.

Therefore a word valued at 73 can be associated to any words equal to 72, 73, or 74.

# WHY a Sun Sign?

Resh → R

BECAUSE, without the Sun, I would not be able to keep warm, breathe, eat, or keep track of time. Since life depends so much on it, ancient people worshiped it as a god.

Friendliness

“Who am I to be **brilliant**, gorgeous, talented, fabulous?” Hebrew word *Shemesh* answers by meaning “Sun, brilliant”. The word comes from Akkadian *Shamash*, a solar deity, and god of Justice in Babylonia and Assyria.

Yet the Sun is not “God”, just a servant of “God.” So is the *Shamash*, the core candle used to kindle the other lights. It sits in attendance, as a **friend** ready to serve, if there was any need for light. A King must be such a servant, be it when “he” is in the State of TEXAS, or in the stage of perceiving TAXES: it must be done for the Good of ALL.

# WHY a Baker's Dozen?

BECAUSE, as beautiful as 12 disciples or 12 steps are, the SUN of 12 months must die into the arms of a 13<sup>th</sup> Moon for me to fulfill my calling, and, at last, save me from my Name...

# WHY Linking & Ranking?

BECAUSE the Wisdom Way is no more about being a feminist than a macho man: it is about joining forces!

Note: The evolution of Hebrew into Roman script was given by linguist and rabbi Marc-Alain Ouaknin, in *The Mysteries of the Alphabet*.

9		8		7		6		5		4		3		2		1

**Linking** is done horizontally, e.g.; **1 to 9**, **2 to 8**, etc., on 9 columns It evokes the relating favored by women. **Ranking** is done vertically, e.g.; 1 to 10 to 100, on 3 rows. It evokes the hierarchy favored by men. Linked horizontally and ranked vertically, the Hebrew alphabet is formed by male/female pairs of signs, as the factual “animals” preserved on Noah’s ark. Both ways are complementary, as the yin yang Way of Knowledge:

- The single digits are the mental intelligence – the **Mind** – of the alphabet.
- The double digits are the emotional intelligence – the **Soul** – of the alphabet.
- The triple digits are the physical intelligence – the **Body** – of the alphabet.

Consider: when I hear and am in my **Heart**, I have no complaints; just gratitude!

# WHY 44 via the 11:11's Gate?

ATBaSh		<p><b>The Purpose</b> of the <i>eXPiRe Tarot</i> is to safely journey through Hebrew as scripting the DNA of Identities, from Aleph to Tav and back, and to equip the soul to fulfill its expression. <b>The Process begins</b> with the courage to cultivate honesty and own the lies as evidenced by a repeated misalignment in my communication: a part of me says it wants connection; the other destroys it by its choice to speak or not speak. <b>It continues</b> by inviting me to dive as deep as needed into the shadow, until I locate the core lie to which I am attached. <b>It ends</b> by feeling the edges of my creation so terminally that I'd know its name. <b>The result</b> is receiving its blessing as <b>Purity</b> or the "Sense of Enough," along with an increase in the ability to RIP, and let silence be my guide in how and when to connect with "you."</p>

# WHY TORA/TARO?

**BECAUSE, as long as I refuse to emPower the NOW, I will need a divining tool to calm my fear of punishment.**

“How long, O LORD? Will you forget me forever? How long will you hide your face from me? How long must I wrestle with my thoughts, and day after day have sorrow in my heart? How long will my enemy triumph over me?” *Psalms 13:1-2*

This process can be used as a daily grounding ritual, or as an oracle of Truth, to assist me to be willing again to do what I know I am to do:

- 1. I write it down my WHY question, e.g.; WHY am I not trusting \_\_\_\_\_?**
- I pick a Tarot card (e.g.; the Sombrero Hat).
  - I find it (e.g.; the Sombrero on P24), and read, feel and reflect on the **BECAUSE** of this specific page as the answer to my question.
  - I note the evolution in English of the Hebrew letter (e.g.; **Teth → Th**).
  - I find the line (e.g.; **Th**) on either the Lion (P48) or Dragon page (49).
  - When needing more information, I find my letter on the Star (P50).

# WHY 69?

BECAUSE being in TantriQK 69 LOVE is the highest cure there is. It is UnderStanding that there's only One of US to the point that I not only can make the difference between "WRITE" and wrong, but also feel how my male Tree and female Tree have always been heart to heart, crown to root, mouth chakra to sex chakra.

"I remember the first time I had sex — I kept the receipt." *Groucho Marx*

From **A** to **S**, I "descend" (as Eve/Evil) towards the **T** of my "CurseAffiction," increasing the painful motion of ego by way of falsehood. This is marked by the alphabet that has 7 triplets (groups of 3 letters) that add up to the reduced sum of *Sheqer* (SQR=600=6+0+0=6) for "falsehood:"

**ABC** = 1+2+3 = 6 | **DEW** = 4+5+6 = 15 = 1+5 = 6 | **GHT** = 7+8+9 = 24 = 2+4 = 6 | **YKL** = 10+20+30 = 60 = 6+0 = 6 | **MNX** = 40+50+60 = 150 = 1+5+0 = 6 | **OPZ** = 70+80+90 = 240 = 2+4+0 = 6 | **QRS** = 100+200+300 = 600 = 6+0+0 = 6.

From **T** to **B**, I "ascend" (as Adam/Good) towards the **A** of my "ROSErection," decreasing the HELL of separation by way of Truth. This is marked by the alphabet that has 7 triplets (groups of 3 letters) that add up to the reduced sum of *Emet* (AMT=441=4+4+1=9) for "Truth:"

**TSR** = 200+300+400 = 900 = 9+0+0 = 9 | **QZP** = 80+90+100 = 270 = 2+7+0 = 9 | **OXN** = 50+60+70 = 180 = 1+8+0 = 9 | **MLK** = 20+30+40 = 90 = 9+0 = 9 | **YTH** = 8+9+10 = 27 = 2+7 = 9 | **GWE** = 5+6+7 = 18 = 1+8 = 9 | **DCB** = 2+3+4 = 9.

# WHY the geometry of 73?

King Solomon prayed for one favor only, yet that one favor encompassed it all: the Wisdom of *Lev Mevin Daath* (LaMeD). Indeed, it takes 3x72, or **Wisdom** (*Chokmah*=73-1) plus **Kindness** (*Chesed*=72) plus **The Under-Standing** (*Habimah*=72) to be able to justly use **Power** (*Gevurah*=216). As for **LMD**, it is equal in its **74** value to the **Da** (DO) of *Daath*: learning is the path to knowledge. **74** is the +1 to Wisdom, which engraves the **32** paths of the Tree Of Life (**10** subtle centers + **22** signs). **32** is the geOMetry of *Lev* (LB) for “**heART**.” As for *HaLev* (**ELB**), it is “THE heart” of **Kindness**, since:

- Its ordinal geOMetry is **19** (5<sup>th</sup> + 12<sup>th</sup> + 2<sup>nd</sup> sign).
- Its cardinal geOMetry is **37** (E5+ L30+B2).

That **heART** is contained within *Chokmah* (HKME), which has:

- An ordinal geOMetry of **37** (8<sup>th</sup> + 11<sup>th</sup> + 13<sup>th</sup> + 5<sup>th</sup> sign).
- A cardinal geOMetry of **73** (H8+ K20+M40+E5).

To know more about how these numbers affect the Tree, see TWT, P106.

9	8	7	6	5	4	3	2	1
---	---	---	---	---	---	---	---	---

**28** is *Koach* (KH), which is within *Chokmah* (HKME) as *Mah Koach* (MEKH) for “the place of force,” that is, the place where the force is with me, allowing me to not abuse my power anymore. The first sentence of the Torah has **28** letters and **7** Hebrew words. The geOMetry of these **28** letters is **2701**, which is **37x73** and also the sum of all numbers from **1** to **73**. **37** and **73** are both prime numbers, numbers that never divide. To have Wisdom is indeed to be primary, beyond the dividedness created by my doubts and my ambivalences.

# WHY Not Choosing to Live?

Dimension	146: Eternal Time	216: Depth	157: Height	216: Width	227: Length	73: Pure Action
-----------	-------------------	------------	-------------	------------	-------------	-----------------

BECAUSE I am afraid of **multidimensionality** – when I am in the **Eternal Time** of **Pure Action: 227** and **157** are **Horakh U’Qumah** (AWRK W’QWME) for “**Length and Height**. **216** of **Rochav** (RWHB) for “**Width**” and **216** of **Omaq** (OWMQ) for “**Depth**” are felt when I end my **216** fear of **Gevurah** (GBWRE) for “**Power**” via the **216** of **Aryeh** (ARYE). See TWT, P13.

“I have set before you life and death, blessings and curses. Now choose life, so that you and yours may live”. Deut. 30:19

My Power issue is really a boundary issue. The unfelt extremes of too much or not enough tie me down to abuse, and enforce the “I am not enough”. Yet, the **216** of Power is powerful: from three satellites of SIX dots, a core of 10 dots, and a border of three times SIX dots, I continue growing the pattern until the bottom one shows up as 3 satellites of **666** dots, a core down-pointing triangle of **703** dots, a composite of **2701** dots, and 3 borders of **216** dots. My **666**-beast destroy borders, when I either give my Power away or steal it, as I am not my “lion’s” leadership. However when the three **666** satellites are within the three **216** borders, Fire-Power cannot burn me. This **2701** dots and the **703** core dots call to the **73** of “Wisdom.” As shown on the previous page, **2701** is the number of letters in Gen. 1. It is also 73x37, both aspects of “Wisdom.” When in that geometry, I have no fear as “GOOD” is with me.

When not emPowering the Now, I am choosing the curse (**Funerals**) and not the blessing of life.

The Funeral	Consecration	Blown Up	Submerged	Buried	Cremated	Mummified
The Sacrifice	A Pyre of Love	No Caprices	No Quarrels	No Backlashes	No Exceptions	No Conditions

# WHY 231 (7x33) Gates?

BECAUSE I choose to live long and prosper, to share the exponential blessings that are bestowed upon me!

'He permuted them, weighed them, and transformed them, Aleph with all of them and all of them with Aleph, Beth with all of them and all of them with Beth. They repeat in a cycle and exist in 231 gates. . . 22 Foundation letters: He placed them in a **wheel** like a wall with 231 gates. The **wheel** oscillates back and forth. A sign for this is: there is nothing in good higher than *Oneg* (ONC) for "delight." There is nothing in evil lower than *Negah* (NCO) for "plague.'" *Sepher Yetzirah* 2.2-4

The Wheel shifts from karma to Dharma, as I fulfill the Law, and espouse *Torah*: I now live up to my potential. Dedicated to love what IS-REAL, I hear/SEE the word *Israel* (**YS-RAL**) as "**there is 231**" gates to knowing the Soul's purity (for the link between purity, soul and **7x33**, see P**35**). Language – and the whole of creation, attraction, manifestation – proceeds from combining the signs to open the mind to another way to look at IT, *the letters going forth as pairs of non-human animals through 231 gates*. Since the Hebrew alphabet has **22** choices for the first letter and **21** choices for the second letter, and since AB|BA are considered as one pair, I come to **231** gates ( $22 \times 21 / 2 = 231$ ).

AB = "Father AlphaBet"  
BA = "enter!"  
*B'Siyata DiShemaya:*  
"with Heaven's help!"

The vision of the **231** gates is given via the black nodes on a white background in the sketch.

Being the **change** I wish to see will take to say a real “**I DO**”, and **decide** to **engage** my inner “**wIsDOM**”. As I see the “Noah’s **Art**” pictured here, read the signs, and befriend them as the **PAIRfect** non-human sentient animals they are, I begin to feel my **2** hands balancing **G**iving and **R**eceiving: **UnderStanding** *in my soul* that there’s only **1** of **US**, **I DO** unto others as I would have them do unto me. Truth is, “in Good, I trust”, and **eye opens** to see that **IT is written**: in **deed**, we – **U** and **I** – are **completely** enough to turn on the **GR**een light of an awake civilization.

? I SEE the uncanny life of symbols ↔ I HEAR and **UnderStand**: there’s only One of **US** ↔ I AM Enough!
