

The image is a complex, multi-layered composition. At the center is a heart-like shape with a face, overlaid with Hebrew letters (Shema, Yod He Vav He) and musical notes. This central element is surrounded by a dense network of colorful, abstract patterns, including a large, multi-colored, spiky shape. To the right, a vertical strip contains several diagrams, including a network of nodes and lines, a circular diagram with numbers, and a series of colored squares. Below the main image, there is a table with two rows and six columns, each containing a question mark. The first row is labeled 'The Word' and the second row is labeled 'The World'. The columns are color-coded: yellow, red, cyan, blue, brown, and red. Below the table, the text 'WHY is Power such a Mystery?' is written in large, bold, yellow letters.

WHY is Power such a Mystery?

Truth be Told...

- **Truth be told**, I am ambivalent: a part of me knows what to do, the other doesn't want to do it.
- **This dividedness** is what sources the illusion of separation.
- **But what if?** What if I had a language soulful enough to address the root of the conflict in such a clear way that I would understand myself? Indeed, when I am not at Peace, there is something I do not understand.

The **Will** of Come_unity

When volunteering to be in “the hot seat,” I am willing:

- to know the truth.
- to begin to see a path to transformation.
- to give myself the permission to stop at any time.

When witnessing solo or as part of a group, I am willing:

- to hold sacred space for the work that is being done.
- to feel that the work being done is also my work.

Who am I?

I am a **seeker**.

I am a **visionary**.

I am a **coach** or a **healer**.

I am an **emissary**.

The Power of a Seeker

To understand that there is an end to dissatisfaction and to persevere to THE END...

The Power of a **Visionary**

To surrender to the unknown, not only in my
“art,” but in all aspects of life...

The Power of a Coach or a Healer

To give up the things that make me sick
and allow me to heal...

The Power of an Emissary

To be the change I wish to see
in the **WORD**...

WHY Power?

BECAUSE I am a divine being – boundless, unlimited.
This also means that the acquisition of wholesome Power is why I am here.

“You create your own reality.” Download from the Collective Unconscious

- Consider: acquiring wholesome Power is the work, as it entails evolving (my) consciousness beyond the fear of being emPowered and giving it all.
- I wish to know WHY I would think I can't _____.

Am I willing to see that 1) I ALWAYS get what I want, which may not be the same as what I *think* I want? 2) to inquire on why I would unconsciously argue for my limitations? 3) to reenergize THE decision to fully surrender, since surrendering is the prerequisite to resonating with coherence?

WHY is Power a Mystery?

BECAUSE, while language is where my Power is,
there is an unconscious element that drives the story I tell.

“Communication is not what is said and done. It is the result of what is said and done.” *Golden XPR*

- When the results of my communication match my vision, I am telling the truth.
- But when there’s a misalignment between what I say I want and what I have *in reality*, there are a few unconscious intentions in my space.
- These “secrets” are what obstruct my creative magic:
 - In regards to _____, I say I want _____.
 - And what I *actually* have is _____.

WHY Confusion?

BECAUSE being confused is a good way
to hide my private agendas from myself and from others.

“Come, let us go down and **confuse** their language, so that they will not **understand** one another’s speech.” *Genesis 11:7*

- “I create as I speak,” always. This is the meaning of the Aramaic formula *Abracadabra*. But my words often create results I would rather not have to experience.
- I am **confused** when I blame others for my failures.
- I don’t **understand** myself: a part of me knows what to say and do to be successful in my creation. The other part doesn’t want to say it or do it.
- I tell the story that it’s all their fault. I wish “s/he” would [not] _____.

WHY Understanding?

BECAUSE understanding myself is understanding everyone and everything. Such sentence is also what guides me on the path to transformation.

The XPR Formula: Understand. Choose Peace. emPower the NOW

- **A Nature-Language:** there is a metalanguage (a language beyond all languages) that is programmed to write Nature into being.
- **It is my Nature to be LOVE:** the codes allow me to understand WHY I do what I do, and thus to feel the order inherent to chaos.
- **Understand → Choose Peace:** this felt sense is helped by an inquiry that is sourced in sacred geometry. As such, it is universal (it relates to the whole and not just parts of me), credible (I can trust it), and radical (it takes me to the root).

We call this language “S/Hebrew” [shee-broo], as it is when Hebrew goes global, ecological and unisex as **the words and worlds** of sacred geometry...

WHY Words & Worlds?

BECAUSE, when I open to S/Hebrew's geometry, I realize that it is not the WORLD that was created in 6 days. It is the WORD!

Order of Above	1	2	3	4	5	6
Order of "Belove"	"Day" 1	The SIXth "Day"	"Day" 5	"Day" 4	"Day" 3	"Day" 2

- Called *the seed of life* and *the Genesis pattern*, the geometrical design below transmits the code of creativity in SIX stages.
- At the moment when the 6th circle is formed, the 7th circle that was here before time or mind reappears.
- This state of mind is called *Shabbat* or "rest." It is **the field** where I do not cause anything, letting creation happen *through* me and not *by* me.

Imagine an alphabet that transcribes the movement of energy (from 1-Opening to 9-Completing, and back) in order to balance the left and right sides of the brain, and ease the mind-body connection...

Language is movement. Movement is life. Life has no meaning. It just is.
